

SCREEDEMON

VIBRATORY WET SCREED

POWERED BY
M18 REDLITHIUM™

MBW's ScreeDemon™ is one of the most innovative and ergonomically friendly wet screeds on the market.

We are excited to announce the development of our very first electric version of the ScreeDemon™ Powered by M18™ REDLITHIUM™ battery.

Significantly quieter than an engine version

Lights to improve visibility in darker work areas

Zero emissions makes it safe for indoor work

Battery life similar to a tank of petrol

Clamp system makes assembly and disassembly fast & easy

Hand/arm vibration is 50 to 90% less than the competition
